to 630-243-3479 or crakow@franciscancommunities.org

KNOW THE 10 SIGNS:

Early Detection Matters

Featuring Hadi Finerty, *Alzheimer's Association-Illinois Chapter*

The warning signs of Alzheimer's disease are often dismissed as side effects of normal aging. If you or someone you know is experiencing memory loss or behavioral changes, it's time to learn the facts. Early detection gives you a chance to begin drug therapy, enroll in clinical studies and plan for the future. Attend this training to learn the 10 Warning signs of Alzheimer's disease. We'll separate myth from reality and address commonly-held fears about Alzheimer's in America. Hear from people who have the disease and find out how to recognize the signs in yourself and others.

***Hadi Finerty** is the Senior Manager of Education and Outreach for the Alzheimer's Association-Illinois Chapter. She strives to educate five counties in Illinois about Alzheimer's disease and other dementias including warning signs, planning ahead and promoting brain health.*

Hadi is personally affected by Alzheimer's following a close relative's diagnosis, and she will be sharing some of her own, personal experiences.

Seating is limited. RSVP by September 14, please call 630-243-3479.
